C Mathematical and Quantitative Methods

J. Hahn, Consistent estimation of the random structural coefficient distribution from the linear simultaneous equations system (C3) 227
M.A. Delgado, J.M. Rodríguez-Poo and M. Wolf, Subsampling inference in cube root asymptotics with an application to Manski's maximum score estimator (C12)241
R. Luger, A modified CUSUM test for orthogonal structural changes (C12)301
Z. He and K. Maekawa, On spurious Granger causality (C12)307
W. Alan Bartley, J. Lee and M.C. Strazicich, Testing the null of cointegration in the presence of a structural break (C12)315
S. Bond, C. Bowsher and F. Windmeijer, Criterion-based inference for GMM in autoregressive panel data models (C12)379
Y. Wen, A generalized method of impulse identification (C13)367
O. Lee and D.W. Shin, A note on stationarity of the MTAR process on the boundary of the stationarity region (C19)263
Y. Hwang, Asymmetric long memory GARCH in exchange return (C22) 1
Y. Hwang, Relationship between inflation rate and inflation uncertainty (C22)179
T.T.-l. Chong and K.-t. Wong, Time series properties of aggregated AR(2) processes (C22)325
Y. Kitazawa, Exponential regression of dynamic panel data models (C23) 7
M. Hoffmann, Long run recursive VAR models and QR decompositions (C32) 15
B. Candelon and H. Lütkepohl, On the reliability of Chow-type tests for parameter constancy in multivariate dynamic models (C32)155
G. Cubadda and A. Hecq, On non-contemporaneous short-run co-movements (C32)389
M. Rosholm and M. Svarer, Structurally dependent competing risks (C41)169
G.B. Asheim and M.L. Weitzman, Does NNP growth indicate welfare improvement? (C43)233
J. Dubra, An asymmetric Kalai–Smorodinsky solution (C71)131
S. Grant, A. Kajii and B. Polak, "Third down with a yard to go": recursive expected utility and the Dixit–Skeath conundrum (C72)275
S.K. Berninghaus and K.-M. Ehrhart, Coordination and information: recent experimental evidence (C72)345
S. Aymard and D. Serra, Do individuals use backward induction in dynamic optimization problems? An experimental investigation (C90)287
A. Kritikos and F. Bolle, Distributional concerns: equity- or efficiency-oriented? (C91)333

D Microeconomics

F.T. Denton and D.C. Mountain, Income distribution and aggregation/disaggregation biases in the measurement of consumer demand elasticities (D1) 21
C.-F. Chung, Modelling demand systems with demographic effects based on the modifying function approach (D12)269
N. Matsushima, Cournot competition and spatial agglomeration revisited (D43)175
S. Huck, K.A. Konrad and W. Müller, Big fish eat small fish: on merger in Stackelberg markets (D43)213
G. Deltas and R. Engelbrecht-Wiggans, Auctions with an inexpert bidder (D44 (Auctions)) 35
K. Back and J.F. Zender, Auctions of divisible goods with endogenous supply (D44) 29
J. Zhao and C.L. Kling, A new explanation for the WTP/WTA disparity (D60)293
J. Hindriks, Is there a demand for income tax progressivity? (D72) 43
L. Eeckhoudt, P. Godfroid and C. Gollier, Multiple risks and the value of information (D81)359

Elsevier Science B.V.
PII: S0165-1765(01)00591-2

M.A. Robe, What can we learn from simulating a standard agency model? (D82)137

E Macroeconomics and Monetary Economics

T. Abeysinghe, Estimation of direct and indirect impact of oil price on growth (E3) 147
M. Dupaigne, Capital utilization and work schedules: the welfare costs of shiftworking (E22)195
S. Gauthier, Learning and the saddle point property (E32)339
J.R. Faria, Habit formation in a monetary growth model (E41) 51
G. Tkacz, Endogenous thresholds and tests for asymmetry in US prime rate movements (E43)207
H. Berger, H. Jensen and G. Schjelderup, To peg or not to peg? A simple model of exchange rate regime choice in small economies (E52)161

F International Economics

D. Greenaway, P. Lloyd and C. Milner, New concepts and measures of the globalisation of production (F10) 57
W.F.C. Verschoor and C.C.P. Wolff, Scandinavian forward discount bias risk premia (F31) 65
F. Takeda, Bank runs and international financial instability revisited (F31)187
P.A. Shively, A test of long-run purchasing power parity (F31)201
D.O. Cushman, R. MacDonald and M. Samborsky, The law of one price for transitional Ukraine (F36)251

G Financial Economics

J. Miffre, Economic activity and time variation in expected futures returns (G12) 73
J. Strauss and T. Yigit, Present value model, heteroscedasticity and parameter stability tests (G12)375
A. Saak and D.A. Hennessy, Well-behaved cash flows (G31) 81

H Public Economics

W. Unold and T. Requate, Pollution control by options trading (H3) 353

J Labor and Demographic Economics

M.-W. Tsou, J.-T. Liu and J.K. Hammitt, Worker flows and job flows in Taiwan (J2) 89
T. Hyclak and J. Ohn, Wage inflation and the post-1991 duration puzzle (J3) 97
M. Kräkel and G. Steiner, Equal sharing in partnerships? (J4) 105
F. Carmichael and R. Ward, Male unemployment and crime in England and Wales (J6) 111
G.S. Oettinger, Do piece rates influence effort choices? Evidence from stadium vendors (J33)117

L Industrial Organization

R. Aoki and Y. Tauman, Patent licensing with spillovers (L1) 125

M Business Administration and Business Economics; Marketing; Accounting

J. Windsperger, The fee structure in franchising: a property rights view (M30)219
